Just checking—have you read the Taught AI Academy Acceptable AI Use Policy and confirm that you will not include any personal names or identifying data about pupils, families, or staff?

Please type “Yes” to confirm before we continue.

You said:

Yes

Heads and SLT Assistant said:

Thought for 26s

Great — thanks for confirming.

Below is a ready-to-use 12-week strategic action plan focused on early intervention, family engagement, and collaboration with external services. It’s aligned with current DfE attendance guidance (statutory from 19 August 2024) and Ofsted expectations.

Strategic Aim

Improve whole-school attendance through a culture of high expectations, early help, and strong partnerships with families and external agencies. This plan complements your School Improvement Plan (SIP) and safeguarding duties, with multi-agency working for persistent ($\leq 90\%$) and severe ($\leq 50\%$) absence.

[GOV.UK](#)

+1

Success Measures (by Week 12)

- Overall absence reduced by 1.0–1.5 percentage points from baseline; persistent absence (PA) reduced by 3–5 pp; severe absence reduced by 0.5–1 pp.
- 100% of PA pupils have a live plan (Assess-Plan-Do-Review) and, where appropriate, Early Help in place.
- Weekly cohort reviews show improving trend lines for priority groups (SEND, disadvantaged, CIN/CPP, EAL).
- Evidence of systematic family engagement (attendance conversations, agreed support plans) and timely escalation consistent with national guidance.
- [GOV.UK](#)

Roles & Governance

- Attendance Leader (AHT/DSL link): Strategy, analytics, fortnightly governor update.
- Attendance Officer: Daily data, first-day response, meeting scheduling, evidence trail.
- Heads of Year/Pastoral: Weekly pupil reviews, home visits with AO/Key Worker.
- SENDCo/DSL: Reasonable adjustments, risk assessments, external referrals (Early Help/health).
- Governor for Attendance: Monitors impact and challenge.
Ofsted expects leaders to prioritise attendance, analyse absence for all groups, and have a clear strategy with multi-agency work where needed. Keep evidence accessible.

Data, Thresholds & Escalation (consistent with DfE)

- Daily: First-day calls/texts; code checks; same-day safeguarding escalation if concerned.
- Weekly: Identify at-risk (92–95%), PA ($\leq 90\%$), severe ($\leq 50\%$); review trends by group; action each case.
- Escalation Pathway: Supportive conversation → Early Help offer → Attendance Panel/contract → consider legal intervention in line with 2024 national rules on penalty notices (standardised thresholds). Keep decisions proportionate and documented.
- [GOV.UK](#)
- +1

12-Week Action Schedule

Each week lists core actions (whole-school), targeted casework (early intervention & families), and external partnership steps.

Week 1 — Launch, Baseline & Safeguarding Sync

- Publish refreshed, plain-English Attendance Policy summary to families; reiterate expectations, reasonable adjustments, and support routes.
- Establish Attendance Command Meeting (ACM): Head/AHT, DSL, SENDCo, AO, HoY (weekly 45 min).
- Build baseline dashboard (overall, PA, severe, groups, tutor/class heatmap); QA attendance codes.
- Cross-check CME/safeguarding risks; align with KCSIE/DSL processes.

Week 2 — Universal Culture & Communication

- Tutor scripts: “attendance matters” micro-messages; punctuality routines.
- Launch nudge comms: supportive SMS reminders before Mondays and after absences (EEF shows low-cost text nudges can help).
- Staff briefing on DfE expectations, escalation ladder, and trauma-informed conversations.
- [GOV.UK](https://www.gov.uk)

Week 3 — Early Identification & Family Conversations

- Generate weekly At-Risk List (92–95%); book 15-min Attendance Conversation with parents/carers for all new at-risk pupils (strengths-based; barriers; quick wins).
- For repeat illness absence: agree health plan/adjustments; clarify evidence needed.
- Begin home visits where calls fail or safeguarding indicates; log outcomes. Ofsted will look for analysis feeding into strategy and casework.

Week 4 — Targeted Support Plans (Assess-Plan-Do-Review)

- For each PA pupil: write a Support Plan (timetable tweaks, safe arrival routine, key adult check-in, transport solutions, breakfast club).
- SENDCo reviews reasonable adjustments and sensory/environmental needs; record in plan.
- Offer Early Help where multiple unmet needs are present; gain consent and submit EHA.
- [BJCFPS](https://www.bjcfps.org.uk)

Week 5 — Attendance Panels & SMART Contracts

- Convene School Attendance Panels (family + HOY/AO/SLT/SENDCo). Agree SMART targets (e.g., +10 attended sessions over 2 weeks), incentives, and support.

- Where parents decline support and absence remains unauthorised/significant, note that legal escalation may be considered per national rules; continue supportive contact.
- [GOV.UK](#)
- [+1](#)

Week 6 — External Services Integration

- ACM reviews severe absence; DSL/SENDCo coordinate Team Around the Family (TAF) where Early Help accepted; book multi-agency meeting (school, Early Help, health, CAMHS/ MHST, YJS if relevant).
- Share data and agreed actions; set 4-week review. Keep records for inspection evidence.
- [BJCFPS](#)

Week 7 — Curriculum Hooks & Belonging

- Rapid audit of curriculum access and belonging for PA pupils: preferred subjects, enrichment, mentoring.
- Introduce re-engagement timetable (gradual build-up) with clear endpoints; link to rewards that recognise effort and improvement (not just perfection).
- Re-brief tutors on restorative re-entry after absence. Ofsted expects high expectations and demonstrable improvement for pupils with specific needs.

Week 8 — Community & Parent Engagement Boost

- Host a Parent Connect evening (short sessions on routines, sleep, anxiety, travel planning; translators as needed).
- Sustain text nudges; targeted calls from key adults before tricky days.
- Measure reach and follow-up (EEF notes engagement is hard; keep interventions simple, universal, and low-burden).

Week 9 — Precision Casework & Transport/Access

- Troubleshoot practical barriers: transport passes, walking bus for identified routes, safe drop-off points.
- For medical anxiety/non-attendance: joint plan with GP/MHST; graded exposure schedule; attendance counted for agreed step-ups. Document reasonable adjustments.
- [GOV.UK](#)

Week 10 — Escalation & Legal Gateway Check

- Review non-engagement or continued unauthorised absence against local threshold; if met, issue formal warning/penalty notice consideration in line with

national standardisation (retain all support evidence). Continue to offer support alongside any enforcement.

- [GOV.UK](#)
- [+1](#)

Week 11 — Impact Review & Governor Reporting

- Present trend data and case studies to Governors: overall/PA/severe by group; support vs. escalation volumes; Early Help/TAF outcomes.
- Identify what worked (e.g., text nudges, key-adult check-ins) and scale for next term. Ofsted will judge favourably where leaders know the issues and have a clear, improving plan.

Week 12 — Consolidation & Next-Cycle Plan

- Refresh At-Risk List for next half-term; carry forward live plans.
- Publish family-facing update celebrating improvements; re-share how to get help early.
- Lock in Attendance Routines Playbook for staff induction and QA.

Family Engagement Standards (use every week)

- Tone: supportive, solutions-focused, culturally sensitive.
- Channels: phone first, then in-person; follow with simple text recap; translated materials.
- Content: sleep routines, morning routines, travel plans, homework boundaries; signpost help.
Evidence suggests simple, timely prompts and building trust improve participation; avoid high-burden asks.

External Partnership Pathway

1. Identify need (data + narrative) → 2) Offer Early Help (consent) → 3) EHA submitted → 4) TAF meeting with clear roles/timescales → 5) 4-week review → 6) Escalate (education welfare/legal) if non-engagement and thresholds met. Maintain records; share information lawfully.
2. [BJCFPS](#)

Safeguarding, SEND & Inclusion

- All attendance work routes through DSL where concerns arise; CME duties followed.
- Plans must include reasonable adjustments, trauma-informed practice, and sensory/environmental supports to remove barriers to attendance.

- Keep AP/part-time timetables under review; ensure they are not a substitute for addressing barriers.
- [GOV.UK](#)

Monitoring & QA (repeat each week)

- Monday ACM: review dashboard and cases; agree actions.
- Mid-week QA: sample 10 registers for code accuracy; tutor conversation dip-checks.
- Friday Report: 1-page trend summary to SLT and half-termly to Governors (data + narrative + next steps).
Inspectors will scrutinise your analysis, actions, and improvement trajectory.

Evidence & Alignment (for SIP/Ofsted file)

- DfE — Working together to improve school attendance (statutory from 19 Aug 2024): responsibilities, culture, escalation, coding. Keep a copy and the summary table in the evidence file.
- [GOV.UK](#)
- +1
- Ofsted — School inspection handbook / current inspection materials: show analysis by groups, live plans, and multi-agency working where appropriate.
- EEF — Parental engagement: use low-burden nudges and simple supports; track reach and impact.

Simple KPI Pack (copy into SIP)

- Overall absence / PA / severe absence (weekly trend).
- % PA pupils with live plan; % with Early Help/TAF.
- Contact success rate (calls answered; meetings held).
- Code accuracy (QA sample).
- Time-to-action from first trigger to plan/panel.
- Pupil voice: “barrier & solution” notes count.

Would you like me to adapt this into a one-page governor briefing or a staff playbook version with templates (call script, meeting agenda, support-plan pro-forma, and Early Help referral checklist)?

You said:

"Create a policy-aligned strategy to reduce staff absence due to sickness. Our staff attendance is significantly below average, and we're seeing morale and workload concerns. Please provide possible causes, action steps, and ways to increase staff retention and wellbeing over the next two terms."

Heads and SLT Assistant said:

Thought for 17s

Just checking—have you read the Taught AI Academy Acceptable AI Use Policy and confirm that you will not include any personal names or identifying data about pupils, families, or staff?

Please type "Yes" to confirm before we continue.

You said:

Yes

Heads and SLT Assistant said:

Thought for 18s

Great — thanks for confirming.

Below is a policy-aligned, evidence-informed strategy you can lift straight into your SIP and SLT papers.

Strategic Aim

Reduce staff sickness absence and improve morale, workload fairness and retention over the next two terms, while aligning with Ofsted expectations on leadership culture, workload and sustainability.

Likely Causes (Diagnostic Hypotheses)

- High workload / inefficient processes (e.g., excessive data/marking cycles; duplicated admin). Inspectors expect workload to be proportionate; >2–3 data drops a year should be justified.
 - Weak implementation climate (initiative churn, low follow-through, little time for practice or feedback). Sustainable improvement typically needs a staged, two-term+ process (Explore-Prepare-Deliver-Sustain).
 - PD doesn't change practice (inputs over mechanisms; one-off sessions). Effective PD builds knowledge, motivates, develops techniques, and embeds practice through specific "mechanisms."
 - Leadership/working-conditions factors (limited autonomy, insufficient mentoring, school climate). Recruitment/retention evidence highlights workload, working conditions, induction/mentoring, effective leadership and collaboration as key levers.
 - Feedback/marking practices drive unnecessary hours (policy over-specification). Shift to evidence-informed feedback principles and reduce performative workload.
 - Parent interfaces create friction (conflict, late notices, behaviour escalation), which can elevate stress and cover needs; building trust with parents is a known pressure point for staff capacity.
 - Misalignment with internal policy (leaders must proactively engage with workload and wellbeing under Taught AI Academy policy).
-

Guiding Principles (Policy & Evidence Alignment)

- Workload must be sustainable and proportionate (Ofsted consider data burden and staff support).
 - Implement change using a structured process with time to prepare, deliver and sustain; celebrate early wins to build climate.
 - Focus PD on mechanisms (e.g., rehearsal, feedback, goal-setting, action planning) not events.
 - Leadership culture matters — conditions, mentoring and collaboration improve retention.
 - Feedback policy: principles over paperwork — reduce performative marking, protect teacher time.
 - Our internal policy expects proactive workload/wellbeing engagement and strong governance.
-

Two-Term Action Plan (January–July)

Term 1 (Weeks 1–12): Stabilise & Remove Friction

1) Rapid Attendance & Workload Diagnostic (Weeks 1–3)

- Analyse absence patterns (by phase, subject, role; short-term vs long-term; triggers).
- Map workload hotspots: data/assessment cycles; marking policy demands; duties/cover; parental comms; behaviour response load.
- Staff pulse (10-minute survey) on controllable drivers: admin, data, marking, meetings, behaviour, comms, line-management support.
- Output: top 5 “workload wins” with owner/deadline; agree baseline KPIs (see below).
Why: Inspectors expect proportionate data burdens and clear steps to remove workload risks.

2) “Workload Wins” Package (Weeks 3–8)

- Data: cap to 2–3 data drops; remove duplication; publish a single assessment calendar.
- Feedback: adopt principles-based feedback (verbal/live/whole-class acceptable), remove mandated written formats/frequencies; share worked examples.
- Meetings: audit and trim; default 60→45 mins; cancel if no decision required.
- Admin: one source of truth for notices; stop collecting data you don’t use.
- Cover: cap maximum internal cover per fortnight; pre-book floating cover where possible.
Why: Reduces immediate pressure on discretionary hours (the strongest driver of morale/absence).

3) Behaviour & Parent Interfaces (Weeks 4–10)

- Front-of-class load: re-teach routines; ensure on-call response within 5 minutes; SLT on corridors at pinch points.
- Parent comms: standardise templates, publish response windows, route concerns via pastoral leads first to protect teacher time; invest in trust-building.
Why: Reduces stress spikes and unplanned time loss; behaviour and support networks link to retention.

4) Support & Flex (Weeks 5–12)

- Return-to-work pathway for long-term sickness: graded timetable, buddy, weekly check-ins for 4 weeks.
- Flexible working pilots (timetabled job-share in non-exam classes; protected PPA at home fortnightly where feasible). Evidence flags flex as a promising but under-researched lever; trial and evaluate.

5) PD that Changes Practice (Weeks 6–12)

- Replace generic twilights with mechanism-rich PD: model–rehearse–feedback–plan. Focus topics that save time (e.g., live feedback routines; efficient retrieval).
- Use the Explore/Prepare phases intentionally: small pilot in 2 depts before whole-school rollout next term.

Term 2 (Weeks 13–24): Embed, Support & Sustain

6) Implement at Depth (Weeks 13–20)

- Scale the feedback policy and data calendar school-wide; provide coaching/drop-ins to protect fidelity while allowing sensible adaptation.
- Empower implementation champions in each faculty to model and troubleshoot.

7) Retention & Development

- Mentoring/Induction: guaranteed coaching for ECTs and staff new to role; scheduled co-planning time each fortnight. School-level mentoring/collaboration strongly associated with retention.
- Leadership behaviours: SLT learning walks focus on workload hygiene (not performative marking); celebrate early gains publicly to build climate.

8) Monitor, Learn, Adjust (Weeks 16–24)

- Light-touch implementation dashboards (are we doing what we said?) and outcome checks (is it helping?). Treat delivery as ongoing learning; adapt using staff feedback.

9) Sustain & De-implement

- Prune any initiative that competes with the new workload rules; lock effective practices into calendars/policies for September.

KPIs & Evidence (track monthly unless stated)

- Absence: total sick days, % staff with ≥ 1 day absence, average length of absence, rate of short-term repeat absence.
- Workload: staff pulse items — % agreeing “data collections are proportionate”; “feedback expectations are clear and manageable”.
- PD quality: % sessions with rehearsal/feedback/action plans (mechanism audit).
- Implementation fidelity: sampling shows feedback principles enacted; data calendar adhered to; meeting trims delivered. Treat fidelity as supportive, not punitive.

- Behaviour load: on-call response times; incidents per 100 pupils (aim ↓), teacher time lost to follow-up.
 - Retention: mid-year and July intent-to-stay; ECT retention into Year 2. Evidence links working conditions, induction/mentoring and leadership to retention.
-

Targets (by July)

- Reduce total sickness days by 20–25% from last year's baseline.
 - ≥ 80% staff agree workload on data/feedback is “proportionate and clear.”
 - ≥ 90% PD sessions include at least two mechanisms (e.g., rehearsal + feedback).
 - Behaviour incident rate down 15% and average on-call response ≤ 5 minutes.
 - Intent-to-stay (July pulse) ≥ 85%.
-

Roles & Governance

- SLT Lead (Wellbeing & Workload): owns workload wins, data calendar, and absence review meetings.
 - HR/Line Managers: consistent return-to-work interviews; reasonable adjustments/graded returns.
 - Implementation Champions: model, coach, collect quick feedback, surface adaptations.
 - LGB/Trust Board: receive termly dashboard on workload/attendance/retention; check alignment with Ofsted expectations and internal policy.
-

Risks & Mitigations

- Initiative overload → Prioritise; pause lower-impact projects; publish a single-page plan.
 - Slippage back to performative marking → Policy states principles, not formats; exemplars + coaching; sampling checks.
 - PD as “one-and-done” → Build in rehearsal, feedback and prompts across the term.
 - Parent pushback on response times → Communicate new standards and pastoral routing to build trust and protect staff capacity.
-

What to Communicate to Staff (Briefing Headlines)

- We're cutting unnecessary workload now (data drops capped; marking principles first).

- Behaviour and parent comms processes will better protect teacher time.
 - PD will be practical, with rehearsal and feedback, and time protected to embed.
 - We'll track workload and absence transparently and adjust based on your feedback (delivery as learning).
-

Would you like this adapted into a 1-page SIP insert and a governor briefing slide deck?

ChatGPT can make mistakes. Check important info. See [Cookie Preferences](#).

You said:

"Draft a new mobile phone policy for the school following repeated incidents of bullying linked to phone use. Please ensure it aligns with DfE guidance, promotes pupil safety, and includes clear expectations, sanctions, and communication plans for staff, students, and parents."

Heads and SLT Assistant said:

Thought for 6s

Just checking—have you read the Taught AI Academy Acceptable AI Use Policy and confirm that you will not include any personal names or identifying data about pupils, families, or staff?

Please type Yes to confirm before we proceed.

(Reminder: No personal data in this chat. This tool is for leadership strategy and school improvement—not lesson planning or pupil-facing content.)

You said:

Yes

Heads and SLT Assistant said:

Thought for 38s

Great — thanks for confirming. Below is a ready-to-use policy you can drop into your handbook/website and brief staff on straight away. It aligns with DfE guidance on mobile phones, behaviour, screening and confiscation, and safeguarding, and reflects Ofsted expectations around calm, orderly cultures and consistent routines.

Mobile Phone and Personal Device Policy

1. Purpose and Rationale

To protect pupils from bullying, harassment and online harm linked to mobile phone use, and to maintain a calm, safe and focused learning environment.

To set clear expectations, consistent sanctions, and robust communication with parents/carers and pupils.

Aligned to DfE guidance recommending schools prohibit mobile phone use during the school day and implement clear, consistently enforced systems.

GOV.UK

+1

2. Scope

Applies to all pupils on the school site, on school transport, on trips/fixtures, and at any school-run activity before/after school ("gate-to-gate").

Covers mobile phones, smartwatches, earbuds, tablets and similar devices capable of communication, recording or internet access.

3. Policy Statement (Expectations)

No use during the school day: Devices must be off and out of sight from arrival at the gate until departure ("off and away for the day").

GOV.UK

No recording or sharing: Filming, photographing, audio recording, AirDrop/beam, hotspotting or messaging is prohibited on site.

Smartwatches/earbuds: Treated as phones; must be off and stored away.

Exams/assessments: Devices are prohibited and will be handled per JCQ/awarding body rules (malpractice risk).

Reasonable adjustments: Agreed exceptions (e.g., medical needs, young carers, SEND) require written authorisation and a brief risk assessment; devices must remain off except at the agreed time/place.

4. Safeguarding and Anti-Bullying

Reporting: Any bullying, harassment, sharing of harmful content (including nude or semi-nude images), or upskirting is reported immediately to the DSL; concerns may lead to child protection procedures and, where appropriate, police liaison.

GOV.UK

Victim support: Follow the school's Anti-Bullying and Safeguarding policies; provide timely support, restore safety, and monitor wellbeing.

Culture: Leaders and staff foster a safe, respectful environment where bullying — online or offline — is not accepted and is addressed quickly and consistently.

5. Confiscation, Searching and Examining Data

Confiscation: Staff may confiscate devices as a disciplinary measure where reasonable.

Confiscated devices are stored securely and returned per the sanctions ladder (below).

GOV.UK

Searching: Trained staff may search for a device or for data on a device if they reasonably suspect it has been, or could be, used to cause harm, disrupt teaching or break school rules. Actions must follow DfE Searching, screening and confiscation guidance.

GOV.UK

Indecent images: Staff must not intentionally view, copy, share or save indecent images of a child; secure the device, inform the DSL, and follow statutory guidance/police advice.

GOV.UK

Recording: All searches/confiscations are logged promptly with the DSL/behaviour lead.

6. Sanctions Ladder (Consistent and Proportionate)

Sanctions sit within the Behaviour Policy and are applied fairly, escalating for repeated or serious breaches.

GOV.UK

Reminder/Redirect – pupil stores the device correctly.

Confiscation to end of day – pupil collects from the pastoral/office desk; incident logged.

Parent/Carer Involvement – device collected by parent/carers; attendance at behaviour meeting; short after-school detention.

Repeated Breach – extended confiscation period (e.g., device handed in daily on arrival for X weeks), community service, or internal sanction.

Serious Misuse (e.g., bullying/harassment, filming staff/pupils, sharing harmful content) – senior leader response; larger sanctions under Behaviour Policy; safeguarding referral; police involvement where appropriate.

GOV.UK

7. Reasonable Adjustments and Vulnerable Pupils

Case-by-case arrangements may be made for SEND/medical/young carer needs.

Plans are documented (brief risk assessment), time-bound, reviewed, and shared with relevant staff.

8. Staff Responsibilities

Model compliance (no personal device use in front of pupils except for professional purposes).

Challenge and act on breaches immediately, using the agreed script for consistency.

Log incidents same day; refer safeguarding concerns to the DSL without delay.

Use the screening/searching/confiscation flowchart and inform a senior leader/DSL for any search beyond a simple confiscation.

GOV.UK

9. Parent/Carer Responsibilities

Ensure pupils either do not bring a phone or keep it off and away during the school day.

Use the school office for urgent messages; do not contact pupils directly during school hours.

Support sanctions and, for repeated issues, agree to daily hand-in or leaving the device at home.

Engage with school communications; brief your child about safe, respectful online behaviour.

(Evidence note: simple, low-cost, regular text/app messages to parents help reinforce expectations and can improve engagement.)

10. Pupil Responsibilities

Follow the off and away for the day rule without prompting.

Never record, share or forward content about other pupils or staff.

Report concerns about online bullying or harmful content to a trusted adult/DSL.

11. Communication and Implementation Plan

Launch:

Whole-school assemblies and tutor time briefing in Week 1 of term.

Parent letter/email and app notification; website policy page updated and translated where needed.

Posters/signage at gates and communal areas ("Off and away for the day").

Staff briefing pack:

One-page flowchart (confiscation/searching/escalation), consistency script, FAQs, and logging instructions.

Quick-reference on when to involve DSL/police for harmful online content.

GOV.UK

Ongoing reinforcement:

Half-termly reminders via parent app/text; student leadership to promote digital citizenship.

Curriculum links through RSHE/Computing on online safety and respectful conduct (KCSIE).
GOV.UK

Two-way channels:

Parents can raise questions via form/tutor or pastoral email; brief feedback survey after first half-term to check understanding and impact.

Use simple, regular nudges (texts/app posts) rather than one-off communications to sustain compliance.

12. Data Protection and Device Handling

Confiscated devices are labelled and stored in a secure cabinet; access is restricted and auditable.

The school will not access personal data without the lawful basis set out in DfE guidance; any examination of data is strictly limited, justified, and recorded, with DSL oversight.

GOV.UK

13. Linked Policies

Behaviour; Safeguarding/Child Protection; Anti-Bullying; Searching, Screening and Confiscation; Online Safety/RSHE; Data Protection/Privacy Notice; Trips and Visits.

14. Monitoring, Evaluation and Review

Termly report to SLT/Governors including: number of confiscations, repeated breaches, bullying incidents linked to devices, pupil/parent feedback, and any equality impacts.

Success indicators: Reduction in incidents of bullying linked to phones; fewer lesson disruptions; improved pupil perception of safety.

Review cycle: Annually, or sooner if DfE/Ofsted guidance updates or safeguarding trends require. (Note: there is no statutory ban in law; schools set and enforce their own prohibitions through behaviour policies.)

House of Commons Library

Staff Consistency Script (for briefings and wall cards)

“Our rule is off and away for the day. Please switch your device off now and put it out of sight.”

“Because it’s visible, I’m confiscating it until the end of the day. You can collect it from the office at 3:10pm. It’s logged.”

“If it happens again, a parent/carers will need to collect the device and we’ll agree a daily hand-in.”

Quick Reference: When to Involve DSL/Police

Any bullying/harassment, threats, hate content, sexualised content, upskirting, or suspected nude/semi-nude images: secure the device, do not view, contact DSL immediately; follow guidance and consider police advice.

GOV.UK

Inspection Readiness Note (for SLT)

Inspectors will look for clear routines and consistent consequences, a calm environment, and rapid, effective action on bullying (including online). Ensure records/evidence are current and staff can describe the policy and its impact.

Would you like me to add a one-page parent FAQ and a staff briefing slide deck to launch this?

You said:

Do the faq please

Heads and SLT Assistant said:

Thought for 6s

Parent Faq – Mobile Phone & Personal Device Policy

Parent FAQ – Mobile Phone & Personal Device Policy

1) Why has the school updated its mobile phone policy?

To keep pupils safe, reduce bullying and online harm linked to phones, and maintain a calm, focused learning environment.

We have seen repeated incidents of misuse; a clear, consistently enforced policy helps prevent harm.

2) What is the rule?

Off and away for the day: From arrival at the school gate to departure, phones and similar devices must be switched off and out of sight.

This includes break and lunch, corridors, toilets, and lessons.

3) Which devices are covered?

Mobile/smart phones, smartwatches, earbuds/airpods, tablets or any device that can record, message, or access the internet.

4) Are pupils allowed phones for travel to and from school?

Yes. We recognise some families want pupils to carry a phone for safety while travelling. Devices must be off and away once pupils reach the school gate.

5) What about emergencies during the day?

If you need to contact your child, please phone the school office and we will relay the message.

If a pupil needs to contact home, they can go to Student Services/the Pastoral Office and we will support them.

6) How does confiscation work?

If a device is seen or used, staff will confiscate it.

First time: collected by the pupil from the office at the end of the day; incident logged.

Repeated breaches: a parent/carer will need to collect; a meeting may be arranged; the pupil may be required to hand the device in each morning for a set period or leave it at home.

Serious misuse (e.g., bullying, filming/sharing of others, offensive or harmful content): senior staff will respond; further sanctions may apply and safeguarding procedures may be initiated. Police may be contacted where appropriate.

7) Will the school look through a phone?

Our approach is to secure the device and involve safeguarding leaders if we suspect serious harm.

The school follows national guidance on searching, screening and confiscation. Any decision to examine data is limited, lawful and recorded. Where sexual or criminal content is suspected, staff do not view images; we follow safeguarding and police advice.

8) Are there any exceptions?

In limited cases (e.g., medical needs, SEND, young carers) the school may agree a reasonable adjustment.

Any exception must be authorised in writing, be time-limited, and require the device to remain off except at the agreed time/place.

9) What about smartwatches and earbuds?

Smartwatches and earbuds are treated the same as phones. They must be switched off and out of sight during the school day.

10) How does this apply to trips, visits and after-school activities?

The same rule applies for all school-run activities ("gate-to-gate"). Trip leaders may set additional expectations depending on the venue and risk assessment. These will be communicated in advance.

11) What happens during exams and assessments?

Devices are strictly prohibited in exam rooms. Possession of a device can lead to disqualification by exam boards. Pupils should not bring devices into any assessment venue.

12) How will the school keep confiscated devices safe?

Confiscated items are labelled, stored securely, and only accessible to authorised staff. Collection procedures are recorded for accountability.

13) What can parents/carers do to help?

Remind your child of off and away for the day before leaving home.

Avoid calling or messaging your child during school hours—use the school office instead.

Discuss respectful, safe online behaviour at home and encourage reporting of concerns to a trusted adult.

Support the school if sanctions are applied and contact us early if you think your child may need an agreed adjustment.

14) How does this policy address bullying and online harm?

The policy prevents on-site use and sharing of harmful content.

Any report of bullying, harassment, or harmful sharing is taken seriously, investigated quickly, and managed through our Anti-Bullying and Safeguarding procedures, with appropriate support for pupils.

15) Who should I contact with questions or to request an exception?

Please contact your child's Head of Year or the Pastoral Team via the school office. We aim to respond within two working days.

16) When does this policy start and how will it be reviewed?

The policy takes effect from the start of the next term (or on the published date in your letter/email). We will review impact termly and report to governors.

Quick Reminders for Families

Phones allowed for travel; not for use on site.

If seen or used, it will be confiscated.

Repeated or serious misuse = parent collection, possible daily hand-in, and further sanctions.

For urgent contact, call the school office.

Thank you for your support in keeping our school calm, safe and focused for every pupil.

Done. Would you like this turned into a one-page PDF handout with your school logo and contact line added, or adapted into a parent app message/letter?

Thought for 23s

Great—thanks for confirming. Below is a ten-step, evidence-aligned plan to prepare for potential reductions to Pupil Premium (PP) funding. It's written for SLT/governors and ready to drop into your SIP or briefing pack.

Ten-Step Plan: Preparing for Pupil Premium Funding Reductions

1) Re-affirm the strategic aim and compliance

- Restate that the single aim of PP is improved outcomes for socio-economically disadvantaged pupils; funding changes do not change that aim.
- Keep your PP strategy within the DfE/EEF tiered approach (high-quality teaching; targeted academic support; wider strategies) so it remains inspection-ready and aligned to the DfE template.

2) Diagnose precise need before cutting anything

- Complete a rapid “Explore” phase: triangulate attainment/progress, persistent absence, behaviour logs, staff/pupil/parent insights to identify the most pressing barriers for disadvantaged pupils.
- Use the EEF Explore tools to structure this diagnosis and avoid assumption-led decisions.

3) Cost–impact review using a tiered lens

- Map every current PP-funded activity to the three EEF tiers and annotate with total cost, cost per pupil, and best-available evidence of impact (internal data + external evidence).
- Protect spending that demonstrably improves teaching quality first (it benefits the widest group of disadvantaged pupils).

4) Prioritise “best bets” with external evidence

- For each need, select approaches with stronger external evidence (Toolkit, guidance reports, promising programmes). Document the quality/relevance of evidence you cite.
- Use the EEF pupil premium evidence brief and related guidance (e.g., attendance, behaviour, parental engagement) to compare options before making reductions.

5) Scenario plan the budget (A/B/C models)

- Build 3 scenarios (e.g., –5%, –10%, –15%). For each:
 - Maintain: core teaching-quality investments and the most cost-effective targeted supports.
 - Adapt: redesign delivery (group sizes, scheduling, staffing mix) without removing core components of the approach (“principled adaptation”).
 - Pause/Stop: lower-impact or weak-evidence activities first; record rationale.

6) Protect teaching quality via efficient PD

- Consolidate to fewer, better professional development activities that use proven PD mechanisms (build knowledge, motivate, develop techniques, embed practice) and fit workload/time.
- Prioritise coaching/PD that includes modelling, rehearsal, feedback, and action-planning; trim peripheral CPD that lacks these features.

7) Targeted academic support: tighten the bolt-ons

- Keep structured small-group/1:1 support that is tightly linked to classroom teaching and curriculum; reduce unaligned or stand-alone interventions first.

- Ensure any continued interventions run alongside classroom improvement and behaviour/attendance work—don't rely on interventions alone.

8) Wider strategies: sharpen attendance & engagement

- Focus limited wider-strategy funds on the barriers with the clearest impact on learning (attendance, behaviour, SEL, parental engagement), using EEF guidance to choose cost-effective approaches.
- Use structured conversations with families to understand “push/pull” factors behind absence before deciding spend.

9) Implementation discipline: do fewer things, better

- Move each priority through the EEF implementation cycle—Explore → Prepare → Deliver → Sustain—with named owners, milestones, and data drops.
- Build an implementation climate: identify champions, set up data/administrative systems, and plan ongoing PD during delivery.

10) Governance, inspection-readiness & communication

- Prepare a short PP addendum for governors: changed funding context, diagnostic summary, what's protected/paused, and the evidence behind choices. (Note: Ofsted expects robust evaluation for disadvantaged pupils but does not require extra paperwork beyond the handbook.)
- Publish an updated PP strategy aligning to the DfE format and EEF tiered model; include how you will monitor impact across the year.

Immediate Next Actions (4–6 weeks)

- Convene PP Review Meeting (SLT/phase leads/SEND/attendance): confirm needs and agree tiered priorities (2 hours).
- Complete cost–impact map and A/B/C budgets; circulate to governors for challenge/assurance.
- Tighten PD plan around a small number of mechanisms-rich activities; retire low-yield CPD.
- Draft and sign off a public-facing PP strategy update and internal implementation plan with milestones.

How this aligns with evidence & EIF

- Uses EEF's updated (Sept 2024) Guide to the Pupil Premium, including the tiered approach and five-step cycle.
- Applies EEF's Implementation Guidance (structured, phased change; climate; champions).

- Focuses PD where it has the highest return, using mechanisms linked to pupil attainment.
- Keeps you inspection-ready on disadvantaged pupils without unnecessary workload.

Would you like this turned into a one-page governor briefing or a filled-in DfE PP strategy template summary?
