

Sample 1

Need a half term (6 weeks, 18 lessons) SoW for supporting pupils in handwriting and letter recognition. They are all KS1 and have some mixed abilities. I Have a few pupils who are EAL and can read and write in arabic.

Thinking....

Scheme of Work Generator – Taught AI Primary Edition

Unit Title and Overview

Field	Detail
Unit Title	Building Fluent Hands: Mastering Letter Formation and Flow
Subject	Literacy (Focus: Handwriting/Transcription)
Year Group	Key Stage 1 (Mixed Ability, Focus Year 1/2 Skills)
Duration	Half-Term (6 Weeks, 18 Lessons)
Target Group	Mainstream with mixed ability, EAL (Arabic literacy), and low literacy needs
Level	Key Stage 1
Inclusion Priorities	EAL, Low Literacy, Mixed Abilities
Included Focus	Catch-up for lower prior attainers, Embedded literacy

Curriculum Intent

The primary intent is to secure the foundational transcription skills of **letter formation and handwriting fluency**¹¹¹¹ as outlined in the National Curriculum for English at Key Stage 1²²². By the end of this unit, pupils will have developed the **automaticity**³³³³ required to free up working memory, enabling them to focus on composition and spelling⁴⁴. The unit is structured to explicitly teach correct letter **kinematics** (direction, starting/finishing points)⁵⁵⁵⁵ and prepare students for emerging joined script, while ensuring **legibility and consistency**⁶⁶⁶ for all.

Component	Goal	EEF/NC Link
Handwriting	Achieve consistent, legible, and accurate letter formation (shape, size, spacing) for all lowercase and capital letters. Begin practising simple joins with accuracy ⁷ .	Transcription (English NC) ⁸ , Promote Fluent Transcription Skills ⁹
Letter Recognition	Instantly recognise and name all letters, understanding the difference between letters and words ¹⁰ .	Reading - Word Reading (English NC) ¹¹
Fluency/Speed	Increase the speed and automaticity of accurate letter formation to reduce cognitive load on working memory ¹²¹²¹²¹² .	Transcription - Handwriting (English NC) ¹³ , Transcription and Sentence Construction ¹⁴

Implementation Plan (18 Lessons)

Lessons are **short, regular, and highly practical**¹⁵, designed for **explicit teaching, deliberate practice, and immediate, specific feedback**¹⁶¹⁶.

Delivery Model

1. **Warm-up (5 mins):** Gross and fine motor skill practice (e.g., finger gyms, scribbling patterns, drawing in the air)¹⁷.
2. **Explicit Instruction (5 mins):** Direct teaching and **modelling**¹⁸ of the focus letter group (e.g., 'long ladder' letters) using verbal cues (e.g., "start at the top, down to the line, bump, flick").
3. **Deliberate Practice (10 mins):** Guided practice of the target letters/joins with immediate **visual and verbal feedback**¹⁹.
4. **Application/Extension (5 mins):** Writing high-frequency words or short, dictated sentences incorporating the focus letter(s)²⁰.
5. **Cool-down/Review (5 mins):** Peer/self-review against simple criteria (e.g., "Did I start in the right place?")²¹.

Weekly Lesson Plan: Building Fluent Hands (6 Weeks)

We ek	Less on	Topic	Learning Objective	Key Activities	Resources	Assessment (Formative/Sum mative)
We ek 1	1–3	Introduct ion: Motor Skills & Families	L.O. Identify and correctly form the 'long ladder' and 'one-armed robot' letter families ²² .	Lesson 1: Fun with Lines (gross motor warm-up). Model and trace: l, i, t, u, j. Lesson 2: Model and trace: r, n, m, h, k, b. Focus on stopping points. Lesson 3: Consolidate families. Sensory tray writing (salt/sand) ²³ .	Visual Aides (letter families), Whiteboards/ Pens, Sensory Trays (sand/salt), Fine Motor Tools	Formative: Teacher observation (checking start/end points). Self-review: 'Did I start at the top?'

Week 2	4–6	Round Letters & Directionality	L.O. Correctly form 'curly caterpillar' letters (c, a, d, o, g, q, e, s, f) with accurate anti-clockwise entry ²⁴ .	Lesson 4: Model and trace: c, a, d, o. Emphasis on anti-clockwise flow. Lesson 5: Model and trace: g, q, e, s. Lesson 6: Consolidate all letter families through writing short CVC words (e.g., cat, dog, mum) ²⁵ .	Large Lined Paper, Green/Red Start Dots on visuals ²⁶ , Letter Formation Cards	Formative: Targeted check on anti-clockwise formation for 3 children per session. Teacher feedback script for correction ²⁷ .
Week 3	7–9	Size, Spacing & Legibility	L.O. Form letters of the correct relative size and use appropriate spacing between words ²⁸ .	Lesson 7: 'Tall' letters (l, t, h, k) vs. 'short' letters (a, e, c). Use of high/low lines. Lesson 8: Word spacing check. Finger-space modelling. Dictate short simple sentences ²⁹ . Lesson 9: Consolidate legibility and speed. Timed writing of a familiar rhyme (e.g., Hickory	Wide-Lined Handwriting Paper, Handwriting Strips (size cue), Stopwatches	Formative: Peer-review: 'Can you read my sentence easily?' (focus on word spacing) ³⁰ .

				Dickory Dock).		
Week 4	10–12	Capital Letters & Numerals	L.O. Form and use all capital letters and numerals (0–9) correctly ³¹ 3131	Lesson 10: Model and trace all capital letters (start at the top!). Lesson 11: Model and trace numerals (0–9). Speed practice drill (writing numbers 1–20) ³² . Lesson 12: Application: Writing sentences that include names and the personal pronoun 'I' (capitalisation check) ³³ .	Capital Letter Reference Chart, Numeral Strips, Task-specific checklists (for capitals/I)	Formative: Teacher focus on identifying and correcting capitalisation/numeral formation errors during sentence writing ³⁴ .

Week 5	13–15	Introducing Simple Joins	L.O. Begin to use horizontal and diagonal strokes to join specific adjacent letters 3535 35	Lesson 13: Model and trace horizontal joins (e.g., o-o, o-n)³⁶. Lesson 14: Model and trace diagonal joins (e.g., a-h, a-t). Lesson 15: Practice: Writing common digraphs or words that include these joins (e.g., the, when, said). Discussion: When not to join (e.g., from capitals)³⁷.	Joined Handwriting Model Strips, Cursive Letter Reference, Specific Join Tracing Sheets	Formative: Teacher Observation (focusing only on join attempts, praising correct joins/strokes)³⁸.
---------------	-------	---------------------------------	---	---	---	---

Week 6	16–18	Fluency, Review & Application	L.O. Increase the speed of transcription while maintaining legibility and accurate letter formation ³⁹	Lesson 16: Speed writing drill (unjoined/joined choice). Focus on maintaining shape and spacing. Lesson 17: Dictate a short narrative/description with Tier 2 vocabulary ⁴⁰ . Lesson 18 (Summative): Timed writing task (short dictated paragraph) to assess speed, legibility, and retention of key letter forms.	Practice Booklet of the Week's Focus, Timers/Stopwatches, Final Assessment Paper	Summative: Final Handwriting Assessment (Speed/Legibility Rubric) ⁴¹ . Teacher comparison to Week 1 baseline.
---------------	-------	--	---	---	--	---

Impact & Assessment Strategy

Assessment Type	When	Focus	EEF/NC Link
Baseline Handwriting Sample	Week 1 (Lesson 1)	Speed, accuracy of individual letter forms, word spacing.	Monitor Progress ⁴² , Diagnostic Assessment ⁴³

Formative Feedback	Daily (Lessons 1–17)	Immediate, verbal feedback on one specific aspect (e.g., correct starting point for 'd' or spacing for 'cat') ⁴⁴ .	Responsive Teaching ⁴⁵ , Effective Feedback ⁴⁶
Timed Writing/Rubric	Week 6 (Lesson 18)	Summative assessment of legibility and speed ⁴⁷ for transference to composition.	Summarise Learning ⁴⁸ , Fluency Rubric ⁴⁹

Impact will be measured by:

1. **Increased Speed:** A demonstrable improvement in the number of accurately formed letters/words written within a 1-minute period (comparing Week 1 vs. Week 6 data).
2. **Improved Accuracy:** Consistent use of correct starting points and directional movements across all letter families (evidenced through observation checklists).
3. **Legibility:** Teacher and peer judgment that the final piece of writing is clear and easy to read⁵⁰.

Inclusive Strategies & Support

The curriculum is designed with **Universal Design for Learning (UDL)** principles to support all children, especially those with EAL and mixed abilities, ensuring **high expectations with appropriate scaffolding**⁵¹.

Area	Strategy	EAL/SEND/EEF Link
Pre-Teaching/Oracy	Daily vocabulary warm-ups focus on the meta-language of writing (e.g., 'loop', 'descender', 'join', 'space') ⁵² .	Develop Language Capabilities ⁵³

Modelling & Scaffolding	Use multi-sensory methods (writing in the air, tracing on rough paper) ⁵⁴ . Use visual cues like large models, handwriting lines coloured green (start) and red (stop/bottom line) ⁵⁵⁵⁵⁵⁵⁵⁵ .	High Expectations with Support ⁵⁶ , UDL/Inclusive Practice ⁵⁷
EAL Support (Arabic)	Multilingualism as an Asset: Pair children with Arabic-literate peers ⁵⁸⁵⁸⁵⁸⁵⁸ . Encourage them to discuss the direction of Arabic script (right-to-left) and compare it explicitly to English (left-to-right) to address potential directional interference ⁵⁹ . Use bilingual visuals/word mats where appropriate ⁶⁰ .	Multilingualism as an Asset ⁶¹ , EAL Band A/B Support ⁶²⁶²⁶²⁶²
Differentiation	Struggling Learners: Focus intensely on the 'ten tricky letters' (i, j, a, d, g, r, n, m, h, z) ⁶³ . Provide extra tracing templates and simple sentence stems for application ⁶⁴ .	Catch-up for Lower Prior Attainers ⁶⁵ , Targeted Support ⁶⁶
Movement Needs	Integrate frequent gross and fine motor warm-ups ⁶⁷ and regular short lessons (30 mins max) to support attention and physical endurance ⁶⁸ . Ensure correct pencil grip checks throughout ⁶⁹ .	Developmentally Appropriate Practice ⁷⁰ , ADHD/SEMH Support ⁷¹⁷¹⁷¹⁷¹

Would you like to generate another scheme of work, or adapt this one for a different learner group or level?

Would you like me to expand any part of the scheme (e.g. formative assessment, resources, or inclusive strategies)?

Sample 2

Plan me a catch up SoW for some KS2 pupils in Year 6 who are falling behind their peers in maths. I need this catch up SoW to focus on ensuring they are ready to start secondary school with all of the appropriate knowledge and skills. This will be delivered by support staff.

Thinking....

Scheme of Work Generator – Catch-Up Mathematics (KS2, Year 6)

Unit Title and Overview

Unit Title: Secondary School Readiness: Core KS2 Mathematics Consolidation

Overview: This targeted 10-week catch-up programme is designed for Year 6 pupils performing below age-related expectations in mathematics to secure foundational knowledge and bridge gaps before Key Stage 3 transition. It focuses on developing **fluency** (in number facts and procedures), **conceptual understanding** (via Concrete-Pictorial-Abstract (CPA)), and **problem-solving** with core KS2 concepts, aligning with EEF guidance on structured interventions¹¹¹¹. The programme will be delivered by support staff in small, regular, and brief sessions to maximise impact and fidelity²²²²²²²².

Curriculum Intent

The primary intent is to ensure pupils are equipped with the **essential mathematical knowledge and confidence** required for a successful transition to secondary school³.

- **Number & Place Value:** Secure understanding of number up to 10,000,000, including negative numbers and rounding⁴.
 - **Fluency in Operations:** Achieve secure, efficient written methods for all four operations (including long multiplication and division) and fluent recall of multiplication facts up to 12×12 ⁵⁵⁵⁵⁵⁵⁵⁵.
 - **Fractions, Decimals, & Percentages (FDP):** Consolidate understanding of FDP equivalents and perform calculations involving FDP⁶⁶⁶⁶.
 - **Reasoning & Problem-Solving:** Develop ability to apply mathematics to routine and non-routine problems, breaking down complex steps and justifying solutions⁷.
-

Implementation Plan (Targeted Intervention)

This plan assumes a 10-week, small-group intervention schedule, delivered **3 times per week** for **30 minutes** per session⁸.

- **Delivery Staff:** Support Staff (Teaching Assistants) must receive intensive initial training and ongoing liaison time with the class teacher or Maths Lead (EEF recommends this for effective TA-led interventions⁹⁹⁹⁹).
- **Focus:** Each week targets one core area, ensuring **sequential** build-up of knowledge¹⁰¹⁰¹⁰¹⁰.
- **Pedagogy:** Use of the **CPA approach** is foundational, ensuring conceptual understanding precedes procedural fluency¹¹¹¹¹¹¹¹¹¹.
- **Resources:** Materials should be prepared in advance by the teacher, explicitly connecting intervention content to in-class learning¹².

Week	Focus Area	Core Learning Objective (KS2 NC)	Key Activities	Resources	Assessment (Formative)
1-2	Place Value & Fluency ($\times$, $\div$ facts)	Securely read, write, order and compare numbers up to 10,000,000 and recall all multiplication/division facts up to 12×12 ¹³ .	CPA: Use Dienes/place value counters to partition and compare large numbers. Active: Quick-fire oral retrieval of multiplication/division facts (e.g., using flashcards/games) ¹⁴ .	Place value counters, Dienes, 12×12 multiplication grids, flashcards.	Daily quick quizzes (e.g., mini-whiteboards) on $\times$, $\div$ facts; observation of active counter-based tasks ¹⁵¹⁵¹ . 515

3	Addition & Subtraction (Multi-digit)	Add and subtract whole numbers with more than 4 digits using formal written methods (columnar addition/subtraction) ¹⁶ .	Modelling: Explicitly model columnar methods for large numbers, ensuring correct alignment and borrowing/carrying. Practice: Guided practice with mixed multi-step word problems involving +, - ¹⁷ .	Base 10 blocks, column paper, worked examples showing common errors ¹⁸ .	Error analysis on practice sheets; self-correction against modelled examples; verbal explanation of procedure ¹⁹ .
4	Multiplication (Short & Long)	Multiply multi-digit numbers (up to 4 digits) by a 2-digit whole number using long multiplication ²⁰ .	CPA: Use arrays (e.g., linking \$10 \times 4\$ array to \$20 \times 4\$ in steps) before moving to the abstract algorithm ²¹ . Fluency: Rehearsing the long multiplication steps with verbal prompts.	Coloured counters for arrays, visual aids showing long multiplication process ²² steps ²² .	Peer-assessment using a checklist for steps in the long multiplication algorithm ²³ ; timed practice of multiplication questions.
5	Division (Short & Long)	Divide numbers up to 4 digits by a 2-digit number using long division and interpret remainders ²⁴ .	Concept: Link long division to repeated subtraction of chunks (e.g., \$10 \div 5\$ divisor, \$5 \div 5\$ divisor). Practice: Guided long division problems, interpreting remainders as decimals/fractions for different contexts ²⁵ .	Counters to group amounts, partially completed long division examples ²⁶ .	Observation of strategies used for estimation; exit ticket questions requiring remainder interpretation ²⁷ .

6	Fractions (Equivalence, $\pm$)	Compare, order, add, and subtract fractions with different denominators using the concept of equivalent fractions ²⁸ .	CPA: Use fraction walls/strips to find common denominators and demonstrate addition/subtraction visually ²⁹ . Reasoning: Explain the need for common denominators using a physical model ³⁰ .	Fraction strips/circles, visual manipulatives, diagrams showing equivalent fractions ³ 13131	Verbal justification of why a common denominator is needed; observation of manipulating fraction models ³²³ 23232
7	Fractions to Decimals/Percentages	Associate a fraction with division and recall/use equivalences between simple FDP ³³³³³³³ 3	Modelling: Explicitly model converting simple fractions to decimals (e.g., $\frac{3}{8}$ to $3 \div 8 = 0.375$). Game: Matching game with cards showing equivalent FDP ³⁴ .	10×10 grids to represent percentages, visual equivalence charts, FDP matching cards ³⁵³ 535	Low-stakes quiz matching FDP equivalents (e.g., $\frac{1}{4} = 0.25 = 25\%$); self-correction of conversion practice ³⁶ .
8	Algebra (Simple Formulae)	Use simple formulae and express missing number problems algebraically ³ 7	Concept: Relate simple algebraic equations to inverse operations and function machines. Active: Create simple formulae based on patterns (e.g., matchstick patterns) and solve for missing variables.	Balances, counters (for solving equations visually), physical patterns (e.g., matchsticks) ³⁸ .	Observation of applying inverse operations; verbal articulation of the steps to solve a simple equation ³⁹ 393939

9-10	Problem Solving (Multi-step)	Solve multi-step problems involving all four operations, FDP, and proportionality, justifying methods	Strategies: Teach and model a structured approach to problem solving (e.g., bar model, identifying knowns/unknowns) Practice: Mixed, contextual problems requiring justification and reasoning.	Bar model templates, calculators (judicious use for final check)	Summative assessment task: multi-step contextual problems with marking focused on strategy used and justification
------	--	---	--	--	---

Impact & Assessment Strategy

Goal: The intervention is considered successful if all participating pupils demonstrate improved **confidence** and **secure working knowledge** of the targeted KS2 readiness material, measured by pre- and post-intervention assessment, supported by formative data.

- **Pre- and Post-Assessment:** A standardised assessment focusing on the core KS2 NC objectives (Number, Operations, FDP) will be administered before Week 1 and after Week 10 to quantify progress
- **Formative Assessment (Daily):** Frequent, low-stakes formative checks (see table) are critical to informing *in-the-moment* adaptation by the support staff. This includes observing pupils' choice of strategy (CPA), their verbal explanations, and error patterns.
- **Confidence Scores (Pupil Voice):** Use a simple numerical scale (e.g., 1-5) at the start and end of each session for pupils to self-assess their confidence in the day's learning objective
- **Teacher/TA Feedback:** Weekly liaison meetings between the support staff and the teacher are mandatory to review progress, ensure **fidelity** to the programme design, and maintain explicit links to classroom work

Inclusive Strategies & Support

This plan incorporates strategies to address common barriers in KS2 catch-up groups

- **Scaffolding & Gradual Release:** Every new concept is introduced with **concrete manipulatives**, moving to pictorial representation before abstract algorithms.

Support is gradually withdrawn (fading) as mastery is achieved

- **Oracy and Vocabulary:** Key mathematical **vocabulary** (Tier 3) is explicitly taught and modelled every session. Pupils are encouraged to **explain their reasoning** verbally before writing, using sentence stems/speaking frames to articulate their thinking
- **Trauma-Informed Practice (SEMH/Anxiety):**
 - Sessions are brief and highly predictable (same time, same place, same structure)
 - **Low-stakes assessment** is used (e.g., mini-whiteboards, games) to reduce anxiety associated with tests
 - Emphasis on **praise and effort** (Resilience value) rather than focusing only on the final outcome (EEF Social and Emotional Learning)
- **EAL Support:**
 - **Dual coding** (visuals and words) is embedded in all materials to support understanding of complex language
 - Use of **shared language peer support** where possible in the small group setting (Translanguaging as an asset)
 - Complex instructions are **chunked and simplified**

Would you like to generate another scheme of work, or adapt this one for a different learner group or level?

Sample 3

Input: I want a One month long creative SoW linked to black history month. We will cover art, music, history and crafts as a part of this SoW which is for all of our KS1 pupils. Focus on our setting in Wandsworth and look at our local history and famous faces.

Thinking....

That's confirmed. We will proceed with generating your bespoke Scheme of Work, ensuring compliance with the Taught AI Primary Acceptable AI Use Policy.

Taught AI Primary – Scheme of Work

Unit Title: Celebrating Black History & Local Heritage (Wandsworth Focus)

Unit Overview

This four-week cross-curricular unit for Key Stage 1 focuses on celebrating Black History Month through the lens of local heritage in Wandsworth and the achievements of Black individuals in arts, music, and social justice. The unit integrates History, Art, Music, and PSHE (Social and Emotional Learning) while actively promoting literacy and numeracy skills¹¹¹¹. The content is designed to be ambitious, inclusive, and sequenced to build foundational knowledge, aligning with the school's core values of Kindness, Respect, and Curiosity².

Curriculum Intent

- **Knowledge:** To introduce pupils to significant Black figures, artists, and musicians, linking their achievements to local history and the concept of community contributions³. To build foundational historical concepts like 'past and present' and 'significant individual'⁴⁴⁴⁴.
- **Skills (SEL & Oracy):** To develop empathy and social awareness by discussing feelings of fairness and difference⁵⁵⁵⁵. To explicitly teach vocabulary related to emotions, art, and music, and use oracy frames (e.g., Book Talk) to discuss stories and ideas⁶⁶⁶⁶.
- **Progression:** To build a coherent chronological narrative by comparing historical figures to people in their own locality (Wandsworth) and understanding their impact⁷⁷. To use expressive arts to develop creativity and self-expression⁸.

Implementation Plan (Key Strategies)

The delivery will be highly scaffolded, active, and rooted in clear routines⁹⁹⁹⁹.

- **Scaffolding & Inclusion:** Use visual resources, realia, and EAL-friendly strategies (e.g., dual-coded vocabulary, simple sentence structures)¹⁰¹⁰¹⁰¹⁰¹⁰¹⁰¹⁰.

Maintain high expectations with appropriate support for all learners, including those with low literacy or SEMH needs¹¹¹¹¹¹¹¹.

- **SEL Integration:** Use the core values of Kindness, Respect, and Resilience as discussion anchors¹². Use stories, role-play, and circle time to model and discuss emotions (self-awareness) and different perspectives (social awareness)¹³¹³¹³¹³.
- **Literacy & Numeracy:** Integrate subject-specific vocabulary explicitly (Tier 2/3 words) using word banks¹⁴¹⁴¹⁴. Apply simple counting/sorting activities (numeracy) within Art/Craft tasks (e.g., counting materials, comparing sizes)¹⁵.
- **Pedagogy:** Use collaborative learning (Teamwork value) and expressive activities (Creativity value) to encourage active participation and oracy development¹⁶¹⁶¹⁶¹⁶¹⁶¹⁶¹⁶.

Impact & Assessment Strategy

Assessment is ongoing, low-stakes, and formative¹⁷.

- **Oracy/SEL:** Observe and record pupils' use of target vocabulary, discussion skills (e.g., taking turns, disagreeing politely), and use of emotional language during structured "Book Talk" or role-play sessions¹⁸¹⁸¹⁸¹⁸.
- **History/Art/Music:** Review photographic evidence and practical outputs (e.g., self-portraits, musical rhythms, timelines) to check for understanding of key concepts and figures¹⁹¹⁹¹⁹¹⁹.
- **End of Unit:** Pupils will contribute to a **Collaborative Heritage Display** featuring their art, written work (scaffolded captions), and a class **"Kindness and Contribution" Charter**, demonstrating their knowledge and adherence to core values.

Inclusive Strategies & Support

- **EAL Support:** Pre-teach key Tier 2/3 vocabulary with accompanying visuals and use bilingual resources where available²⁰²⁰²⁰²⁰²⁰²⁰²⁰. Use substitution tables and sentence stems for written tasks²¹.
- **SEND/Low Literacy:** Provide large print, hands-on manipulatives (e.g., art materials, counting objects), and pair pupils with supportive buddies for partner talk/reading²²²²²²²². Chunk instructions and use visual timetables²³²³²³²³.
- **SEMH/Anxiety:** Ensure Circle Time discussions are safe and non-judgemental (Kindness value)²⁴. Offer calm corners or emotional regulation zones for pupils to

use if feelings become overwhelming²⁵²⁵²⁵²⁵. Focus on positive self-talk and use
 "Repair and Restore" conversations when conflict arises²⁶²⁶²⁶²⁶.

Black History & Local Heritage (KS1) – Monthly Scheme of Work

Week	Lesson	Topic	Learning Objective	Key Activities	Resources	Assessment
1	History/SEL	Past & Present Contributions	Identify key contributions of famous Black figures (non-local) and compare them to community helpers (local context) ²⁷²⁷²⁷ .	Circle Time: Introduce Black History Month. Discuss 'Contribution' and 'Kindness'²⁸. Activity: Match famous figures (e.g., Rosa Parks - focus on actions/feelings) to simple timelines (past/present)²⁹. Art Link: Create hand-prints for a Kindness Tree display.	Simple visual flashcards of historical figures (focus on role/actions). Timelines (past/present) visual aid. Art materials (paint, paper).	Formative: Observe participation in Circle Time. Check for accurate matching (past/present concept).

2	Art/Literacy	Local Heroes & Self-Portraits	Understand 'identity' and 'representation'. ³⁰ Begin to create self-portraits using diverse skin tones and discuss the concept of being a 'future local hero' (Resilience value) ³¹ .	Story: Read an inclusive story celebrating difference. ³² Oracy: Book Talk on character emotions/motivations. ³³ Art: Mix and create personal skin tones and hair textures. Draw self-portraits with a caption (scaffolded sentence stem: "I am kind/resilient because...") ³⁴ .	Inclusive storybook (e.g., celebrating diversity). Mirrors, varied skin tone paints, varied paper for self-portraits. Scaffolded writing frames.	Formative: Assess oracy using SEL/Oracy checklist (emotions/justification). Review captions for core values.
3	Music/Numeracy	Rhythm, Diversity, and Emotion	Recognize different rhythms and discuss how music can express different emotions. ³⁵ Create and repeat a simple two-part rhythm (Teamwork value) ³⁶ .	Music: Listen to various genres of Black music (e.g., Afrobeats, Jazz). Discuss the <i>feeling</i> of the music (Self-awareness) ³⁷ . Numeracy Link: Teach a simple rhythm pattern and count beats (e.g., 2/4 time). Activity: Create rain-shakers/rh	Musical instruments/found objects. Visual rhythm cards (1 beat, 2 beats). Craft materials for shakers (counting activity/numeracy link).	Formative: Observe ability to maintain a rhythm and listen actively (Respect value) ³⁹ . Check counting accuracy for craft materials.

				ythm-sticks, and count materials needed ³⁸ .		
4	History/Craft	Wandsworth Heroes & Community	Understand local history (Wandsworth) and how community/kindness makes it a better place to live ⁴⁰⁴⁰⁴⁰ . Consolidate learning by contributing to a class display.	Local Focus: Show images of Wandsworth landmarks/local community heroes. Discuss 'fairness' and how people help each other (Kindness value) ⁴¹ . Craft: Contribute to the Collaborative Heritage Display using art/portraits from Week 2 and adding facts/captions about Wandsworth heroes (past/present). SEL: Circle time to create a class Contribution Charter .	Local images (Wandsworth Library, parks, shops) ⁴² . Collaborative display board/materials. 'Contribution Charter' template.	Summative: Assess finished display contributions. Summative: Review class Contribution Charter (pupil voice/understanding of roles).

Would you like to generate another scheme of work, or adapt this one for a different learner group or level?

Would you like me to expand any part of the scheme (e.g., formative assessment, resources, or inclusive strategies)?

Sample 4

Inout: Plan me a new Science SoW for the full Year. We are worried the existing SoW for our Year 1 pupils is too challenging, and so we want to start over. Plan me out the full year, with key milestones in each term. I need identifying factors which would indicate that pupils are falling behind and where to insert interventions for them. I need this to really bring the world of science and the natural world to life for them, and captivate them, with fun end of half term projects for the whole class to take part in.

Thinking....

Taught AI Primary: Year 1 Science Scheme of Work

 Unit Title and Overview

Unit Title	Duration	Focus
Autumn 1: Animals & Our Senses	Half-Term	Identifying and naming common animals, their basic structures, and associating senses with body parts ¹ .
Autumn 2: Everyday Materials	Half-Term	Distinguishing between objects and materials, naming materials, and describing simple physical properties ² .
Spring 1: Plants & Trees	Half-Term	Identifying common wild and garden plants (including deciduous and evergreen trees) and describing their basic structure ³ .
Spring 2: Seasonal Changes (Weather & Day Length)	Half-Term	Observing and describing seasonal weather patterns and how day length varies ⁴ .
Summer 1: Exploring Forces (Push/Pull & Movement)	Half-Term	Comparing movement on different surfaces and exploring forces that need contact (push, pull) ⁵ .
Summer 2: Animals (Grouping & Movement)	Half-Term	Identifying common animals (fish, birds, mammals etc.) and grouping them by what they eat (carnivore, herbivore, omnivore) ⁶ .

Curriculum Intent

The intent of this scheme is to establish a foundation for understanding the world through the disciplines of biology, chemistry, and physics⁷⁷⁷. We aim to ensure that Year 1 pupils:

- **Develop Curiosity:** Inspire a sense of excitement and curiosity about natural phenomena through high-quality, memorable experiences⁸.
- **Acquire Foundational Knowledge:** Know and apply the knowledge and skills required for the Year 1 Science Programme of Study (National Curriculum)⁹⁹⁹⁹.
- **Develop Scientific Skills:** Begin to use simple scientific language and skills by asking questions, observing closely, and identifying/classifying¹⁰.
- **Build Confidence:** Ensure learning is scaffolded and appropriate, building on early concepts securely to prevent future misconceptions or anxiety¹¹¹¹¹¹¹¹.

Implementation Plan (Summary)

Teaching will be **active, exploratory, and language-rich**¹²¹²¹²¹².

- **Explicit Instruction:** Use focused, short bursts of direct teaching for core vocabulary and scientific concepts¹³.
- **First-Hand Experience:** Maximise 'first-hand practical experiences' (e.g., in-class exploration, outdoor work) to root abstract ideas in tangible reality¹⁴¹⁴¹⁴¹⁴.
- **Oracy and Vocabulary:** Consistently promote scientific vocabulary (both informal and formal) through intentional "teachable moments" and discussions¹⁵¹⁵¹⁵.
- **Assessment for Learning:** Integrate ongoing formative assessment (observation, discussion, drawings) to identify the specific nature of any pupil difficulty *before* it becomes a sustained problem¹⁶.

Impact & Assessment Strategy

Assessment will be **low-stakes and observational** (formative) to ensure every pupil has the opportunity to demonstrate attainment¹⁷¹⁷¹⁷¹⁷.

Key Milestones (End-of-Term Projects)

Term	End of Term Project/Outcome

Autumn Term	Mini Museum of Materials: Pupils create a labelled display, grouping everyday materials based on two simple properties (e.g., hard/soft, rough/smooth) ¹⁸ .
Spring Term	The Big Year 1 Weather Forecast: Groups record observations of a week's weather and day length ¹⁹ , then use simple models/drawings to present their 'forecast' to a peer class, using simple weather vocabulary.
Summer Term	The Great Animal Habitat Showcase: Pupils use classification (e.g., carnivore, herbivore, omnivore) and create a labelled model/drawing of a familiar animal and its basic structure ²⁰ .

Monitoring for Falling Behind & Intervention

Area of Concern	Indicator of Falling Behind (Observable)	Recommended Intervention / Next Step
Vocabulary/Language 21	Consistent use of informal language where formal terms (e.g., <i>leaf</i> , <i>metal</i> , <i>mammal</i>) are expected, even after explicit teaching ²² .	Targeted Vocabulary Boost (Band A/B EAL/Low Lit): Short, <i>daily</i> 10-15 min TA/Teacher-led session pre-teaching/re-teaching new vocabulary using realia, simple visuals, and translation apps (if EAL) ²³²³²³²³ .

Classification/Grouping ²⁴	Inability to sort objects/living things consistently by a single, given property (e.g., grouping wood and glass together without clear rationale).	Structured Small Grouping: Targeted activity (3-4 pupils) focusing solely on sorting tasks using explicit and consistent criteria (e.g., sorting shapes by sides, leaves by colour/type). Use open-ended questions like, "Tell me your rule. How did you decide this one belongs here?" ²⁵²⁵²⁵²⁵ .
Observation Skills ²⁶	Unable to accurately describe simple changes over time (e.g., seed growth) or notice a given difference after prompting.	Guided Close Observation (1:1 or paired): Adult models "thinking aloud" while observing (e.g., "I notice the small leaf has changed from smooth to rough. What do you notice?") ²⁷²⁷²⁷²⁷ . Increase use of simple equipment (magnifying glass) to aid focus ²⁸ .

Inclusive Strategies & Support

This plan champions the overarching school commitment to **Inclusion, Oracy, and Multilingualism**²⁹²⁹²⁹²⁹²⁹²⁹²⁹²⁹.

- **EAL Support (Linguistic Inclusion):**
 - Use **multilingual word mats** and dual-language flashcards for key Tier 3 (subject-specific) vocabulary (e.g., *deciduous, mammal*)³⁰.
 - Encourage **translanguaging** (discussion in home language) during group planning to aid cognitive access to the curriculum content³¹.
 - Use **visual scaffolds** (photos, labeled diagrams, realia) to reinforce the meaning of instructions and concepts, rather than relying solely on abstract language³².
- **SEND/Low Literacy (Adaptive Teaching):**

- **Chunking tasks** and providing clear, simple, sequential verbal instructions³³³³³³³³.
- Allow alternatives to written recording (e.g., drawing, verbal explanation recorded by an adult, picture matching, simple tallying)³⁴³⁴³⁴³⁴.
- Pair children with supportive **near-peer mentors** during collaborative tasks to model language and positive interactions³⁵³⁵³⁵³⁵.
- **SEMH/Regulation:**
 - Use **emotion coaching** to explicitly link characters' feelings in stories to scientific wonder (e.g., curiosity, excitement)³⁶.
 - Maintain predictable **routines** and visual timetables to reduce anxiety and promote self-regulation³⁷³⁷³⁷³⁷.

Year 1 Science: Weekly Plan

We ek	Le ss on	Topic	Learning Objective	Key Activities	Resource s	Assessmen t (Formative/ Summative)
Aut um n 1	1	Introduction to Science & Senses	To identify the 5 basic senses and link them to the correct body part ³⁸ .	Sensory Walk: Pupils use senses outdoors (observing, listening, feeling). Return to class to draw and label a human outline with the 5 senses ³⁹ .	Human outline templates, outdoor objects, simple labels.	Observatio n: Can pupil correctly match the sense word to the body part on their drawing?

	2	Exploring Touch	To use touch and descriptive language (e.g., rough/smooth) to compare objects ⁴⁰	Feely Bag Challenge : Pairs describe mystery objects using touch (e.g., hard, soft, rough, smooth) without looking. Teacher models rich vocabulary.	Feely bags, everyday objects (soft toy, stone, sandpaper, fabric).	Discussion: Can pupils use at least two descriptive words accurately? (Oracy focus)
	3	Common Animals	To identify and name a variety of common animals (fish, birds, mammals, reptiles) ⁴	Animal Sorting: Introduce classification by major group. Pupils sort animal picture cards into groups (e.g., mammal, bird) and justify choices verbally.	Large animal picture cards (local & known pets), group labels.	Activity Check: Can pupil place 4 out of 5 cards into the correct basic group?

	4	Animal Structures	To describe and compare the basic structures of common animals ⁴² .	Puppet Play: Use puppets/toys to discuss and label basic parts (e.g., head, legs, wings). Compare a bird (wings/beak) to a dog (legs/snout) ⁴³ .	Animal puppets, basic body part labels (wings, tail, fur/feathers).	Observation: Can pupil correctly describe one structural difference between two animals (e.g., "birds have wings, dogs do not")?
	5	What is an Object?	To distinguish between an object (e.g., a chair) and the materials from which it is made (e.g., wood) ⁴⁴ .	Object/Material Detective: Take photos of familiar objects. Pupils guess the main material. Introduce the vocabulary: <i>object, material, made from</i> ⁴⁵ .	Photos of classroom objects, vocabulary cards.	Exit Ticket (Visual): Pupil draws one object and labels the material it is made from.

Autumn 2	6	Naming Materials	To identify and name a variety of everyday materials (wood, plastic, glass, metal, water, rock) ⁴⁶ .	Material Hunt: Hunt around the classroom/playground to find examples of the 6 core materials. Collect samples for the next lesson.	Material collection bags/boxes.	Check-in: Can pupil name 4 of the 6 target materials?
	7	Material Properties	To describe the simple physical properties of everyday materials (e.g., hard/soft, rough/smooth, bendy/stiff) ⁴⁷ .	Comparative Testing: Use collected materials. Pairs test properties by attempting to squash, bend, or stretch. Record findings on a simple tick chart ⁴⁸ .	Material samples, magnifying glasses, recording charts (visual/word focus).	Activity Check: Can pupil correctly record the result of one physical property test (e.g., glass is 'stiff')?

	8	Grouping Materials	To compare and group materials based on a simple physical property ⁴⁹ .	Sorting Challenge : Pupils sort a mixed set of materials into two groups (e.g., absorbent/non-absorbent, waterproof/not waterproof). Verbal justification of their "rule" ⁵⁰ .	Mixed materials, large hoops/labels for grouping.	Observation: Can pupil explain the 'rule' they used to group the materials?
	9	Plants: Naming	To identify and name common wild and garden plants (e.g., stem, flower, root) ⁵¹ .	Plant Structure Investigation: Examine plants outdoors and use simple diagrams/flashcards to identify basic parts (flower/blossom, leaves, stem, roots).	Potted plants, simple diagrams, labels/flashcards.	Activity Check: Can pupil correctly match 3 out of 4 plant structure labels?

Spring 1	10	Plants: Trees	To identify and name deciduous (losing leaves) and evergreen (keeping leaves) trees ⁵² .	Tree Detective Walk: Collect leaves from different trees. Sort leaves into deciduous (gone) and evergreen (staying). Discuss seasonal change link.	Tree leaves/photos, paper bags for collecting.	Discussion: Can pupil use the words <i>deciduous</i> and <i>evergreen</i> to describe trees?
	11	Seasonal Changes: Weather	To observe and describe weather associated with the seasons ⁵³ .	Weather Charting: Introduce simple weather symbols/pictograms. Pupils observe and record the daily weather using the symbols for a school week ⁵⁴ .	Weather chart templates, simple weather symbols/pictograms.	Activity Check: Can pupil record a weather observation accurately using the set symbol?

	12	Seasonal Changes: Day Length	To observe and describe how day length varies across the seasons ⁵ .	Shadow Fun: Use outdoor light (sun or lamp) to observe shadows at different times of the day. Draw/photograph the difference. Discuss <i>longer vs shorter</i> ⁵⁶ .	Chalk, clock visuals, outdoor space.	Observation: Can pupil describe that shadows/daylight change over time?
Spring 2	13	Forces: Movement	To compare how objects move on different surfaces (e.g., fast/slow, rough/smooth) ⁵⁷⁵⁷ .	Ramp Test: Roll a car/ball down a ramp covered with different materials (e.g., carpet, wood, sandpaper). Predict and test which material makes it go further.	Ramp, car/ball, measuring tape, different surfaces.	Written/Drawn Record: Can pupil complete a simple table/drawing to show which surface was <i>fastest</i> and which was <i>slowest</i> ?

	14	Forces: Push and Pull	To notice that some forces (push/pull) need contact between two objects ⁵⁸ 5858	Push/Pull Actions: Pupils demonstrate actions that involve pushing (opening a door, kicking a ball) or pulling (opening a drawer, pulling a toy). Classify action cards as <i>push</i> or <i>pull</i> .	Action cards (push/pull), everyday objects (door, chair, toy).	Activity Check: Can pupil correctly classify 4 out of 5 actions as 'push' or 'pull'?
	15	Forces: Magnets (Contact vs Distance)	To notice that magnetic forces can act at a distance, unlike push/pull forces ⁵⁹ .	Magnet Exploration: Explore magnets and objects. Discuss and test if the magnet has to touch the object to move it. Compare to the <i>push/pull</i>	Magnets, paper clips, wooden blocks, simple recording chart.	Discussion: Can pupil explain that a magnet can move a paperclip without touching it?

				action from last week.		
Su mm er 1	16	Magnets: Attract/Repel	To observe how magnets attract (pull together) or repel (push away) each other ⁶⁰ .	Magnet Game: Pairs use bar magnets to feel the push and pull. Introduce simple poles concept (like poles repel, unlike attract) through careful observation.	Bar magnets, non-magnetic objects for contrast.	Observation: Can pupil demonstrate a magnet pushing another away and pulling it in?
	17	Grouping by Diet (Herbivore/Carnivore/Omnivore)	To identify animals as carnivores, herbivores, or omnivores based on what they eat ⁶¹ .	Fact File Creation: Show fact cards/videos of common animals and their diets. Introduce the vocabulary <i>carnivore</i> , <i>herbivore</i> , <i>omnivore</i> . Pupils sort	Animal fact cards, labels (C/H/O).	Activity Check: Can pupil accurately sort 4 out of 5 animals into the correct diet category?

				animals based on diet.		
	18	Human Body Needs	To describe the basic needs of animals, including humans, for survival (water, food, air) ⁶² .	Needs Circle Time: Discuss and match pictures of basic needs (water, food, air) to humans and pets. Discuss how plants' needs are similar/different ⁶³ .	Pictures of basic needs (air, water, food).	Verbal Check-in: Can pupil state two basic needs for human survival?
Summer 2	19	Food Chains (Introduction)	To describe how animals obtain their food from plants and other animals using the idea of a simple food	Food Chain Sequencing: Introduce simple food chain: <i>plant</i> -> <i>animal</i> -> <i>animal</i> . Use cards (e.g., grass -> rabbit -> fox). Pupils sequence correctly and	Simple food chain cards (3 links).	Activity Check: Can pupil correctly sequence a 3-link food chain and say, "The fox eats the rabbit"?

			chain ⁶⁴ 6464	verbally describe the flow.		
	20	Simple Body Parts (Humans)	To identify, name, draw, and label the basic parts of the human body ⁶⁵ .	Label the Body: Use a large paper outline or template. Pupils correctly place/write labels for main body parts (e.g., head, neck, arms, legs) ⁶⁶ .	Paper human outlines, body part labels.	Final Summative Assessment: Can pupil correctly label 5 out of 7 basic body parts?

Would you like to generate another scheme of work, or adapt this one for a different learner group or level?

Would you like me to expand any part of the scheme (e.g., formative assessment, resources, or inclusive strategies)?
